

SMARTER COMPUTING

*Developing an outstanding
creative computing curriculum
in a primary setting.*

National Teaching School
designated by

National College for
Teaching & Leadership

FOR COMPUTING SUBJECT LEADERS AND OTHER INTERESTED PARTIES:

What equipment should my school buy?

How can we best use the equipment we already have?

How can the profile of computing be raised in my school?

How do I ensure curriculum coverage?

What about physical computing, such as robotics?

How do I use technology for cross curricular purposes?

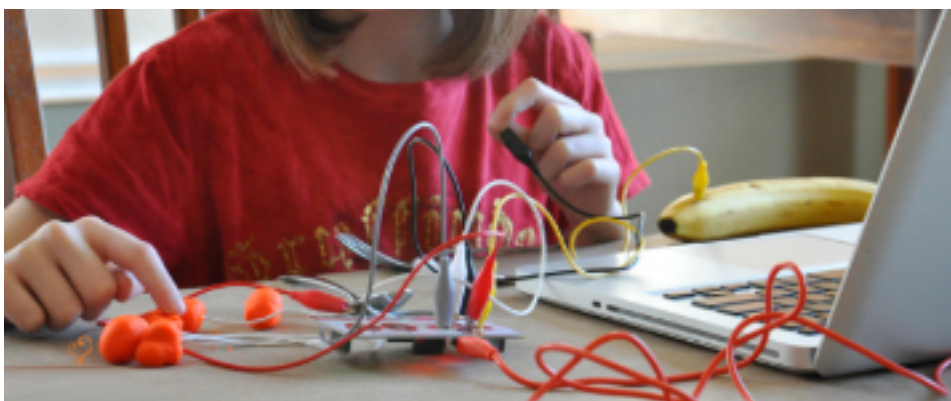

All attendees to 2018/19 sessions judged the outcomes as 'excellent'.
